Cheltenham

Keith Holland Opticians – a national award-winning practice

“Our aim to provide specialist eye care to our patients is our priority – we are your **truly independent provider.**”

Tailored Eyewear:

Our Dispensing Opticians are proud to provide all our patients with personal styling consultations including sports eyewear. We showcase the latest in global eyewear fashion and lens technology.

Our independent eyewear brands are all handpicked for their exclusive designs and sustainable appeal. We offer custom made wood, horn and 3D printed frames alongside independent luxury brands.

Consultations:

Our 60-minute appointments ensure that you are not rushed and we provide the time to listen to your individual needs.

For continuous eye care, we offer a membership plan that includes unlimited access to our diagnostic imaging technology and consultations with your regular specialist.

About Us:

Mr Dermot Keogh has built a team of the UK's leading eye-care professionals to deliver the highest level of expertise across all aspects of eye care.

With decades of experience across both NHS and private eye health environments we also offer in-house partnership clinics for Hearing-Care and Functional Nutrition.

Imaging Technology:

We offer the latest in advanced imaging and diagnostic equipment to all our patients making us the leading technology practice in the region. Our range of instruments includes OCT, Optos Daytona wide field and Zeiss Humphries visual fields.

Further specialist equipment is available for patients with Dry Eye conditions and complex contact lens requirements. These include IPL treatment (Intense Pulsation Light), Blephex, Corneal Topography & Eagle-Eye Profiler

Hearing Care:

We have partnered with The Hearing Care Partnership and can offer a full hearing care and ear wax removal service.

Aligning with the ethos of the practice, our hearing care expert offers the latest and best in hearing care technology.

Nutrition:

Joanna Keogh, a hugely talented functional medicine practitioner, offers 1-1 personalised programmes or one-off Comprehensive Health assessments including blood tests with a personalised report with suitable recommendations.
